Re: Omacor
Docket No. 2005E-0233
Docket No. 2005E-0247
Docket No. 2005E-0258

The Honorable Jon Dudas
Under Secretary of Commerce for Intellectual Property and
Director of the United States Patent and Trademark Office
Box Patent Extension
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Director Dudas:

This is in regard to the patent term extension applications for U.S. Patents No. 5,502,077, No. 5,698,594, and No. 5,656,667, filed by Pronova Biocare AS under 35 U.S.C. § 156. The patents claim Omacor (omega-3-acid ethyl esters), NDA 21-654.

In the February 2, 2006, issue of the Federal Register (71 Fed. Reg. 5669), the Food and Drug Administration published its determination of this product's regulatory review period, as required under 35 U.S.C. § 156(d)(2)(A). The notice provided that on or before August 1, 2006, 180 days after the publication of the determination, any interested person could file a petition with FDA under 35 U.S.C. § 156(d)(2)(B)(i) for a determination of whether the patent term extension applicant acted with due diligence during the regulatory review period.

The 180-day period for filing a due diligence petition pursuant to this notice has expired and FDA has received no such petition. Therefore, FDA considers the regulatory review period determination to be final.

Please let me know if we can provide further assistance.

Sincerely yours,

Jane A. Axelrad
Associate Director for Policy
Center for Drug Evaluation and Research
